YOUNGER FRESHER HEALTHIER

## Dermal Volume Replacement

Impressions of beauty change with time as do our faces as we age. With the range of dermal fillers available at the Epsom Skin Clinics, you can have a natural beauty lift with the body's own material. All our fillers are made from hyaluronic acid which is a non-animal, biodegradable gel. The gel is injected into the skin in tiny amounts with a very fine needle. The result is instantaneous and produces a long lasting natural enhancement which is gentle and safe to your skin.

Shape facial contours, such as cheek bones and chin.
