

Epsom Skin Clinics

YOUNGER FRESHER HEALTHIER

Permanent Hair Reduction

The Epsom Skin Clinics use the most advanced FDA cleared Laser and Intense Pulsed Light technology for permanent hair reduction, safely and effectively treating all ethnic origins and skin types including tanned skin. A consultation and test patch will be necessary before treatment.

How many treatments do I need?

Our extensive experience tells us that you can expect to need from 4 - 10 treatments (6 - 8 is average) to each treatment area for long lasting optimal results. These treatments are spaced approximately 4 - 8 weeks apart, based on hair growth cycles.

How long does it take?

Treatments take between 15 and 60 minutes depending on the area being treated.

How permanent is hair removal?

The average patient sees a 48% reduction in hair growth after three treatments and up to an 80% lasting reduction after 6 to 8 treatments but results will vary from person to person.

How much does it cost?
